PROFILE

DevOps Engineering student with hands-on experience in Linux, Windows Server, networking, Docker, Git, and CI/CD. I enjoy building reliable, repeatable solutions and supporting daily operations through automation and clear documentation. Comfortable working with cloud basics, system administration, and practical problem-solving. Background in radiography with strong attention to safety, structured work, and a service mindset in fast-paced environments. Seeking an internship or practical training opportunity as part of my DevOps Engineering program, focusing on IT operations, cloud, and automation.
